

Sticks for Kids, a partnership between NRPA & GCBA, puts clubs in the hands of under-privileged children.

Through the partnership with the National Recreation and Park Association (NRPA), GCBA and NRPA have provided opportunities for underserved and disadvantaged youth to learn about the game of golf through the Sticks for Kids program. **The Sticks for Kids program has expanded to over 500 park and recreation agencies who have collectively received over 5,000 sets of junior golf clubs, programming, and promotional materials to implement the Sticks for Kids program.** The Sticks for Kids program has afforded thousands of kids a hands-on experience to learn the fundamentals of golf.
